EXPERIENCE

Web Development

Intern - CodSoft

Jun 2024 - Present

During my internship at Codesoft, I specialized in frontend development, gaining valuable hands-on experience in creating user-friendly and responsive web applications. I worked with a dynamic team of developers, contributing to the design and implementation of various frontend features. My tasks included writing clean, efficient code using HTML, CSS, and JavaScript.

Vocational Training

Ordinance Factory - Dehradun

June 2024 - Present

During this summer internship, I will gain hands-on experience in various aspects of manufacturing and production processes. I will learn about the intricacies of quality control, safety protocols, and the operation of advanced machinery. Additionally, I will have the opportunity to work alongside experienced professionals, enhancing my technical skills and understanding of the industry's best practices. This training will be invaluable in broadening my practical knowledge and preparing me for future career opportunities in the field."

PROJECT

Landing Page

Mar 2024 - May 2024

This project is a landing page, designed to capture the attention of visitors with a clean, modern layout and responsive design. It features smooth navigation, engaging visuals, and clear calls to action, ensuring an optimal user experience across all devices.

Bank Management System

Jan 2024 - Mar 2024

In this Project I developed a Bank Management System using Java and MySQL. Key features include user authentication, account management, transaction processing, report generation, and robust error handling. This project enhanced my skills in Java programming and database management, contributing to my journey in full-stack development.
